

IN THE SUPREME COURT OF THE REPUBLIC OF SINGAPORE

PRACTICE DIRECTION NO. 4 OF 2000

THE TECHNOLOGY COURTS

Since the launch of the Technology Court in July 1995, there have been various advances in technology suitable for exploitation in the courtroom. Tapping on these advances and the feedback received, the computer systems and audio-visual equipment in the Technology Court have been upgraded and a second Technology Court, housed in Court No. 3, constructed. Together, these Technology Courts provide members of the legal profession with more ways of presenting complex cases.

2. The directions contained in attached amending pages to *The Supreme Court Practice Directions (1997 Ed.)* set out the procedures to be followed and the fees to be paid for using the facilities provided in the Technology Courts.

3. This practice direction should be included in *The Supreme Court Practice Directions (1997 Ed.)* immediately before the first page of the table of contents. Instructions for effecting the amendments to *The Supreme Court Practice Directions (1997 Ed.)* are contained in the Appendix hereto.

Dated the 1st day of July, 2000

CHIAM BOON KENG
REGISTRAR
SUPREME COURT
