With effect from 28 June 2021, a third-party funding (TPF) framework to cover proceedings commenced in the Singapore International Commercial Court (SICC) has been established. With the Covid-19 pandemic giving rise to the number of disputes as well as companies facing insolvency risks, this has been viewed as a timely move.

In this webinar, find out more about the unique advantages of the SICC as a trusted neutral venue for international dispute resolution and the benefits that third-party funding can provide to parties. Hear the different perspectives of legal and funding experts as to what the SICC with the extension of third-party funding could offer businesses, especially those facing financial constraints.
